AWARDS 2012

WORLD'S BEST HOTEL IN THE CATEGORY

„BEST ALPINE SPA“

BERGSPA HOTEL LA VAL

Switzerland

The annual SENSES Awards held to coincide with the ITB International Tourism Fair in Berlin, Arabian Travel Market in Dubai and WTM in London have already become an international barometer, especially as a hallmark of excellence for the Wellness and Lifestyle industry as a whole. No doubt this is because when selecting a winner, the editorial team takes the approach of an international jury, evaluating the nominated hotels, destinations and products according to a number of criteria such as the range of treatments available at the SPA, quality of standard, service and class in a Hotel, quality of a leisure destination, etc. We are very proud that the SENSES Award given for the 16th time now has been able to establish itself as both an international and an independent barometer for the entire industry.

The editorial staff of SENSES and the SENSES jurors selected the SENSES Hotel 2012. The winner was selected from about 500 hotels and resorts around the globe.
